

LANDSCAPE TRANSFORMER SERIES
300W

12V / 13V / 14V / 15V TAPS

IP65

- Pre-punched knockouts with replaceable rubber covers
- Quick removal door and bottom panel
- Large wire connection lugs, tilted for easy access
- designed for the contractor
- IP65 enclosure prevents water, dust, and pest intrusion, extends the life of plug-in timers, controls and wire connections.
- Optional integrated surge protector (490555 DMAG-SURGEPRO) guards against lightning strikes and power surges
- Lifetime warranty
- Accommodates a wide variety of plug-in timers and wireless controls (Wi-Fi, Bluetooth, Zigbee)

| Height | Width | Depth |
|----------------------|----------------------|---------------------|
| 11.46" (291.08mm) | 6.132" (155.75mm) | 5.69" (144.55mm) |

Enclosure: 20 gauge 304 stainless-steel housing with stainless-steel fasteners

Installation: Wall or stanchion mount, pre-punched knockouts: 3/4", 1" & 2"

Input Wiring: 6-foot water-resistant cord and plug

Transformer: Encapsulated toroidal core

Input Voltage: 120VAC 50/60Hz

Output Voltage: 12/13/14/15 VAC nominal

Surge Protection*: Designed for ANSI C62.41-2002 Category C-low, 6kV/3kA

Enclosure Rating: IP65 (6: Dust-tight, 5: Protected against jets of water)

Listing: UL

Certification: Conforms to UL 1838 and CSA C22.2 No. 250.7:20, safety standards for landscape lighting transformers

Weight: 14 lbs.

Warranty: Lifetime

*Optional

- ◆ Stainless-steel housing with seams that are both welded and riveted for long product life
- ◆ Dual stainless-steel latches and automotive-grade gasket provide a tight and uniform seal
- ◆ IP65 enclosure for protection from dust, driving rain, sprinklers and insects
- ◆ Designed for the installer with tilted connection rail, removable door, quick-release bottom plate—no more hand cramping and awkward angles
- ◆ Large, removable, rubber knockouts save time, eliminate rework and enable tight conduit connections
- ◆ Small size that's easy to locate in any installation
- ◆ Longer timer life due to dust-proof and watertight enclosure
- ◆ Accommodates a wide variety of plug-in timers including wireless models for smartphone or home assistant control
- ◆ Optional integrated 6kV/3kA surge protector guards against lightning strikes and utility line surges
- ◆ Optional photoelectric switch for dusk-to-dawn operation
